# eFulfillment Service “Best Rate” Ship Codes

Below you will find the 4 EFS “Best Rate” ship codes. Below each ship code, you will see the ship methods that are rate shopped with each order. For example, when submitting an order using the ECONOMY\_LIGHTWEIGHT\_POST ship code, we will automatically rate shop 5 different ship methods, and our clients will pay the lowest rate among those 5 methods.

\*Please note that, when using a Best Rate ship code, EFS may ship the package via a different method than our client was billed for. For instance, we may ship the package via Home Delivery and bill at the SmartPost rate, ensuring our clients always pay the lowest rate, even if the shipping is upgraded.
